

Sydney Training Centre reopens 8th November 2021

The below outlines the safety precautions we have in place to ensure the safety of our customers and employees.

Physical Distancing

Our facilities have been clearly marked and capacities have been reduced to adequately meet the current government physical distancing requirements. Our classrooms have been arranged to ensure physical distancing is maintained during training. Our staff will also be monitoring all common areas.

Vaccination

In line with NSW Government Public Health Orders our face-to-face training will be only accessible to fully vaccinated attendees. To those who will not be fully vaccinated before 1st December 2021, in most circumstances, we will have virtual training options available for you to attend on your scheduled dates.

Please be advised that upon arrival at the Sydney Training Centre you will be required to follow all Government advice including; providing proof of your vaccination, social distancing and checking in via the QR codes provided.

Catering and Breakout Area

All our catering will be individually wrapped. Coffee will be served using Nespresso pods and individually wrapped teas will be available. Crochery and cutlery will be cleaned per Safe Work Australia guidelines. If required, disposable cups and cutlery will also be available. Physical distancing rules will apply in the breakout area.

Cleaning

Routine cleaning and disinfecting is conducted by our staff to comply with the guidelines set by Safe Work Australia. Hand sanitiser stations are available throughout the venue.

Classrooms

To comply with physical distancing requirements our classroom capacity has been reduced. Our students will have individual desks, pre-packed stationery and bottled water will be supplied.

Up to date as of 8th October 2021
