Level 3 – CBAP® Certification
Preparation Course

CBAP®
Certified Business Analysis Professional

IIBA® Endorsed
Education
Provider™

Overview

The profession of Business Analysis continues to experience unprecedented growth and recognition in both a predictive and adaptive project environment. A consequence of this growth is increased reliance upon Business Analysts to deliver requirements with a focus on value. As companies increasingly adopt Business Analysis frameworks and practices the demand for knowledgeable practitioners increases.

The International Institute of Business Analysis (IIBA) has launched a certification program to globally recognise professionals in the field of business analysis. The multi-tiered program recognises Business Analyst Professionals who can demonstrate knowledge, skill, ability and their support of the growth of the profession.

Our intention is not to teach participants how to perform Business Analysis tasks or produce Business Analysis deliverables, but to guide you through the certification process, and prepare you for the Certified Business Analysis Professional (CBAP) exam.

PM-Partners 5-day certification program provides participants with the required 35 Professional Development Hours for the CBAP Application process. Our course also provides participants with an approach to studying for the CBAP exam.

This course has been developed by a team which includes a founding member of the IIBA, who now serves as the Chair of the IIBA NSW Chapter.

Course participants receive:

- A comprehensive course manual covering A Guide to the Business Analysis Body of Knowledge (BABOK Guide)
- Practice exam questions and answers
- A tool to guide participants through the application process
- A poster demonstrating the relationships between knowledge area inputs and outputs

Objectives

To prepare experienced Business Analysts for the task of passing the CBAP certification exam, with minimum disruption to current work duties.

A key benefit of this combined offering includes practical study tips that range from participating in study groups, use of flash cards and undertaking sample exam questions.

The course focuses on creating the appropriate mindset required to understand and deal with the situations presented by exam questions, as well as how to critically

analyse the practices, tools and techniques required (and expected) of empowered Business Analysts in the global marketplace. Candidates at a CBAP level are encouraged to approach their exams in a similar fashion and prepare strategies for successful attainment of their desired credential.

Customer story

Listen to Dominic Cain speak about how he went from being a young Chef to a Programme Director.

vimeo.com/pmpartners/customer-story

Mark was an excellent course facilitator/instructor. His years of experience and knowledge is evident in the way he speaks and communicates the content beyond the structure of the training manual.

His focus was on helping the students to understand the content and be able to apply the knowledge practically which I personally believe is more relevant than learning purely for the purpose of passing the CBAP exam. Thank you Mark.
