

# Agile Fundamentals

## Overview

Today's market has organisation's strategically trying to find ways to enhance the customer experience while reducing overall costs. Agile has become increasingly popular as it incorporates aspects of both Lean and iterative development thinking. This enables organisations to respond to volatile market change and deliver business value whilst improving overall business performance.

Agile as a philosophy incorporates a set of values, principles and practices to help improve business performance. When the Agile mindset is fully embraced it provides an organisation with the transparency and awareness required to help their delivery teams deliver business value early and often, while reducing bottlenecks, thus delivering value on time without overshooting budgets or time constraints.

# Why learn with PM-Partners?

## Because we turn your career goals into reality.

Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

## Tell us where you want to go

At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

## Helping to develop professional capabilities for 25 years

Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.
