

PMI Agile Certified Practitioner (PMI-ACP)[®]

Overview

Our PMI Agile Certified Practitioner exam preparation course provides the necessary study and preparation required to obtain the globally recognised Agile Certified Practitioner (PMI-ACP) and enable the fast pace of change and empowerment that is integral to agile. The purpose of this certification program is to build a comprehensive knowledge base of agile best practices, to enable project managers and team members to apply the tools and techniques when working within an agile environment, with a goal of obtaining a professional certification credential of the highest calibre.

PMI are shortly launching an updated PMI-ACP exam!

The new PMI-ACP certification program emphasises an 'Agile Mindset,' aligning with the latest industry practices and ensuring that certified agile practitioners deliver even greater value to agile teams and organisations, by validating a professional's experience and skillset across multiple agile approaches, tools and techniques.

The PMI-ACP promotes team collaboration to drive agile transformations, projects, and product development—keeping organisations competitive and agile in a rapidly evolving landscape.

The new program will be released in November 2024.
