

Sustainable Project Management PRiSM™ Foundation

For the Green Project Manager
— Basic (GPM-b™) certification

Overview

This foundational and knowledge-based certification is designed to provide participants with the necessary skills and expertise to deliver projects sustainably.

The GPM-b certification is the first of its kind, placing a strong emphasis on the importance of sustainable project management, offering participants the opportunity to improve the construct and delivery of goods and services produced as project deliverables, and use measurable standards to consider and account for environmental impacts throughout the project lifecycle.

As a GPM-b certified project manager, you will be able to demonstrate your in-depth knowledge and understanding of delivering projects using sustainable methodologies, setting yourself apart from other project managers in your field. You will be equipped with the necessary tools and resources to ensure your projects are conducted with the utmost sustainability, making a positive impact on the environment and the world around us.

Objectives

This course will enable participants to:

- Describe the importance of sustainability
- Understand the PRiSM™ project lifecycle
- Develop an effective business case
- Perform a P5 impact assessment Analysis (P5IA)
- Develop a Sustainability Management Plan (SMP)

Course duration: 1 day

Course delivery

Materials: A comprehensive participant workbook is provided.

This course is for participants that have either:

- Satisfied one of the Recognition of Prior Learning (RPL) requirements, as stated on the [Green Project Management](#) website.
- Attended the two-day PM-Partners PM Fundamentals course, or equivalent.

Please note that it is **essential that you have a solid understanding of Project Management concepts** as these will not be covered in the course.

Key topics

- **Sustainability core concepts**
Explore the fundamentals of sustainability including sustainability drivers, models, development goals and assessments.
- **PRiSM project lifecycle**
Identify the lifecycle concepts, phases, and types of the PRiSM project lifecycle. PRiSM = Projects Integrating Sustainable Methods
- **Business case**
Understand how strategy relates to the business case, typical contents, and the evolution of the business case through the project lifecycle.
- **The P5 impact analysis**
Learn the structure of the P5 standard, how to use P5 impact analysis steps to conduct a sustainability analysis, recognising the people / social, plant and prosperity impacts, and interpreting the score.
- **Sustainability management planning**
Discover the contents of the sustainability management plan, roles and responsibilities, developing sustainability KPIs, and the impact of scope exclusions.

Why learn with PM-Partners?

Because we turn your career goals into reality.

Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

Tell us where you want to go

At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

Helping to develop professional capabilities for 25 years

Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.

Each year, our expert facilitators train and certify more than 12,000 people throughout Australia, New Zealand and South-East Asia to best practice standards. All highly qualified practitioners in their field, they draw from real-life scenarios and their own experience to add real value for individuals, teams and organisations.
